EDUCATION

University of California, Davis

Graphic Design, 2008

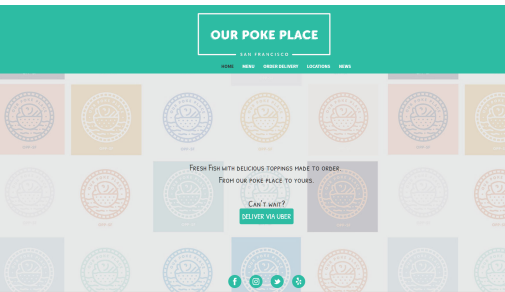

CLIENT
 Lattice Media Network contract companies

OBJECTIVE
 To design out colorful landing pages and banner advertisements to generate optimal clickthrough while preserving visual design while keeping business content.

CLIENT
 University of California, Davis

OBJECTIVE
 To create a print triptych pamphlet for the Staff Assembly organization that was clean, legible, and used the UC Davis colors and image asset on hand.

CLIENT
 Our Poke Place

OBJECTIVE
 Create a business website in Wordpress with the client's brand identity.

CLIENT
 UX study with Quickbooks in Sketch

OBJECTIVE
 Rework the App to be more user-friendly, and to incorporate features from competitors like Freshbooks with more modern App redesigns.

CLIENT
 Fortune 500 tech companies (Guavus, Frontrange)

OBJECTIVE
 To design and produce themed Salesforce portals for internal and vendor use, matching the look and feel of the corporate identity as designed in the pattern libraries.
